Forecast for Tuesday 13 Jul 2021

Weather: A few clear spells through the early hours but cloud increasing with a few spots of rain or drizzle possible around dawn. The cloud soon lifts and breaks to leave a dry day with some good spells of warm sunshine developing.

Chance of cloud free mountain/hill tops above 700m: Little chance at first but improving to 90% through the morning.

Visibility: Periods or persistent cloud above about 450m becoming only small amounts of cloud below the summits by late morning. Otherwise visibility very good, with good panoramic views of surrounding mountains developing, but several kilometres in early rain.

Meteorologist's View

Valley temperatures rising to 21 or 22 Celsius by day. Strong sunshine brings a risk of sunburn and dehydration.

Forecast for Wednesday 14 Jul 2021

Weather: Dry with long clear or sunny spells, risk of sunburn and dehydration in the strong sunshine, but cloud increasing through the afternoon, with perhaps a little evening rain or drizzle

Maximum wind: Westerly or northwesterly 10-15mph.

Chance of cloud free mountain/hill tops above 700m: Around 75% at first, otherwise close to 100% with little or no cloud below the summits until late afternoon when gradually lowering cloud reduces chances.

Visibility: Occasional cloud at first and periods or persistent cloud in the evening above 300-450m. Otherwise visibility very good through much of the day with good panoramic views of surrounding mountains.

Temperature: **Valleys:** Around 11 or 12 Celsius at dawn rising to plus 21 or 22 Celsius by day
At 700m: Around plus 12 Celsius
Freezing level: Well above the summits.
